

TO WHOM IT MAY CONCERN

Re: Concordia Property Development Limited

I can confirm that we have been tenants of the above named company for approximately a year now.

During the course of the year we have always received a first class service and nothing has ever been too much trouble. This obviously goes a long way to ensure that our staff has an excellent working environment to work in.

I would have no hesitation of recommending Concordia as a potential landlord to any contact of ours that are looking for property.

Should you have a questions please contact the undersigned at the address below.
