8<sup>th</sup> July 2010

Dear Adrian,

At the start of 2010 we decided to search for some new premises to accommodate our new business.

After passing Dunston Business Village in my car I was immediately impressed by the site and straight away organised a meeting to view the available offices.

A meeting was set up very quickly and as soon myself and my business partner had a look around we knew this was the place to grow our business.

Since we have moved in the security, networking, and communications were set up straight away which was a massive help and didn't affect the running of our business. Also we are delighted with our offices, the build is high quality with air conditioning, and we have a communal kitchen and bathroom.

The support staff are very helpful and only a phone call away if we have any technical issues.

We would not hesitate in highly recommending Dunston Business Village to any other businesses.

Yours sincerely,

Byron Benton  
Managing Director
